Welcome to Searchlight Solutions

Searchlight is a leading provider of training services to the insurance and financial services professions.

Whether you're looking for technical, regulatory compliance, leadership, sales and marketing, professional or IT skills training, we can help. Delivered via webinar or face-to-face training, we offer market-leading, flexible solutions. We can also write bespoke material to support your in-house training and learning management systems.

We have been operating for over twenty years, and our nationwide team of trainers has hundreds of years' combined insurance experience between them. All our trainers have an array of technical and other general insurance specific knowledge and, most importantly, the ability to bring the subject matter to life with energy and enthusiasm.

What we offer

- Training can be delivered in two formats - online via Live webinars or face-to-face in-house training workshops. (Covid-19 permitting)
- Offering a balance of physical interaction and remote learning – often referred to as a blended learning, Searchlight is perfectly placed to support both online and offline elements of training.
- Authoring – we can also offer bespoke content specifically tailored to match your training requirements for your own learning management system.
- With a high degree of audience participation and a focus on content, delivery and satisfaction, Searchlight actively encourages feedback and continual improvement in its workshops.
- Searchlight has the Intellectual Property for the content of over 200 Technical, Regulatory Leadership, Business Skills and Regulation courses, which are added to regularly and kept up to date.
